Historic Buildings of Significant 19th-Century Architectural Styles

Over four dozen exquisite examples of historic architecture. Regarded by many as the best-preserved buildings of high historic architectural styles in the Midwest.

Be advised; most of these buildings are in private ownership, not open to or inviting of visitation. Respectfully, observe the buildings from sidewalks or vehicles. Do not knock on doors or otherwise disrupt the private lives of residents and owners. Thank you.

Areas of particular architectural interest.

Exceptional
